Integrated Rural Water Supply

†731.SHRI JAI PARKASH AGGARWAL: Will the Minister of RURAL DEVELOPMENT be pleased to state:

(a) the State-wise details of proposals regarding Integrated Rural Water Supply and environmental cleanliness project as on date; and

(b) the action taken or being taken by Government in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF RURAL DEVLEOPMENT (SHRI CHANDRA SEKHAR SAHU): (a) and (b) Rural drinking water supply and sanitation are state subjects and state governments are responsible for drinking water and sanitation facilities in the rural areas. To supplement the efforts of the states, financial assistance and technical support is rendered to the states through centrally sponsored schemes namely Accelerated Rural Water Supply Programme (ARWSP) for rural water supply and Central Rural Sanitation Programme (CRSP) for rural sanitation. As such, integrated projects under aforesaid two schemes have not been approved by the Centre.

For rural water supply schemes/projects, state governments are competent to plan, sanction and implement the same from the funds provided under ARWSP and project/scheme-wise details are not maintained at the Government of India level.

Under CRSP, Total Sanitation Campaign (TSC) has been launched to improve the sanitation level in rural areas of the country and till date, 582 projects in 30 states/UTs have been approved for implementation at a total cost of Rs. 13,520.36 crore, out of which Central share is Rs. 8,509.96 crore.
